Response to COVID-19

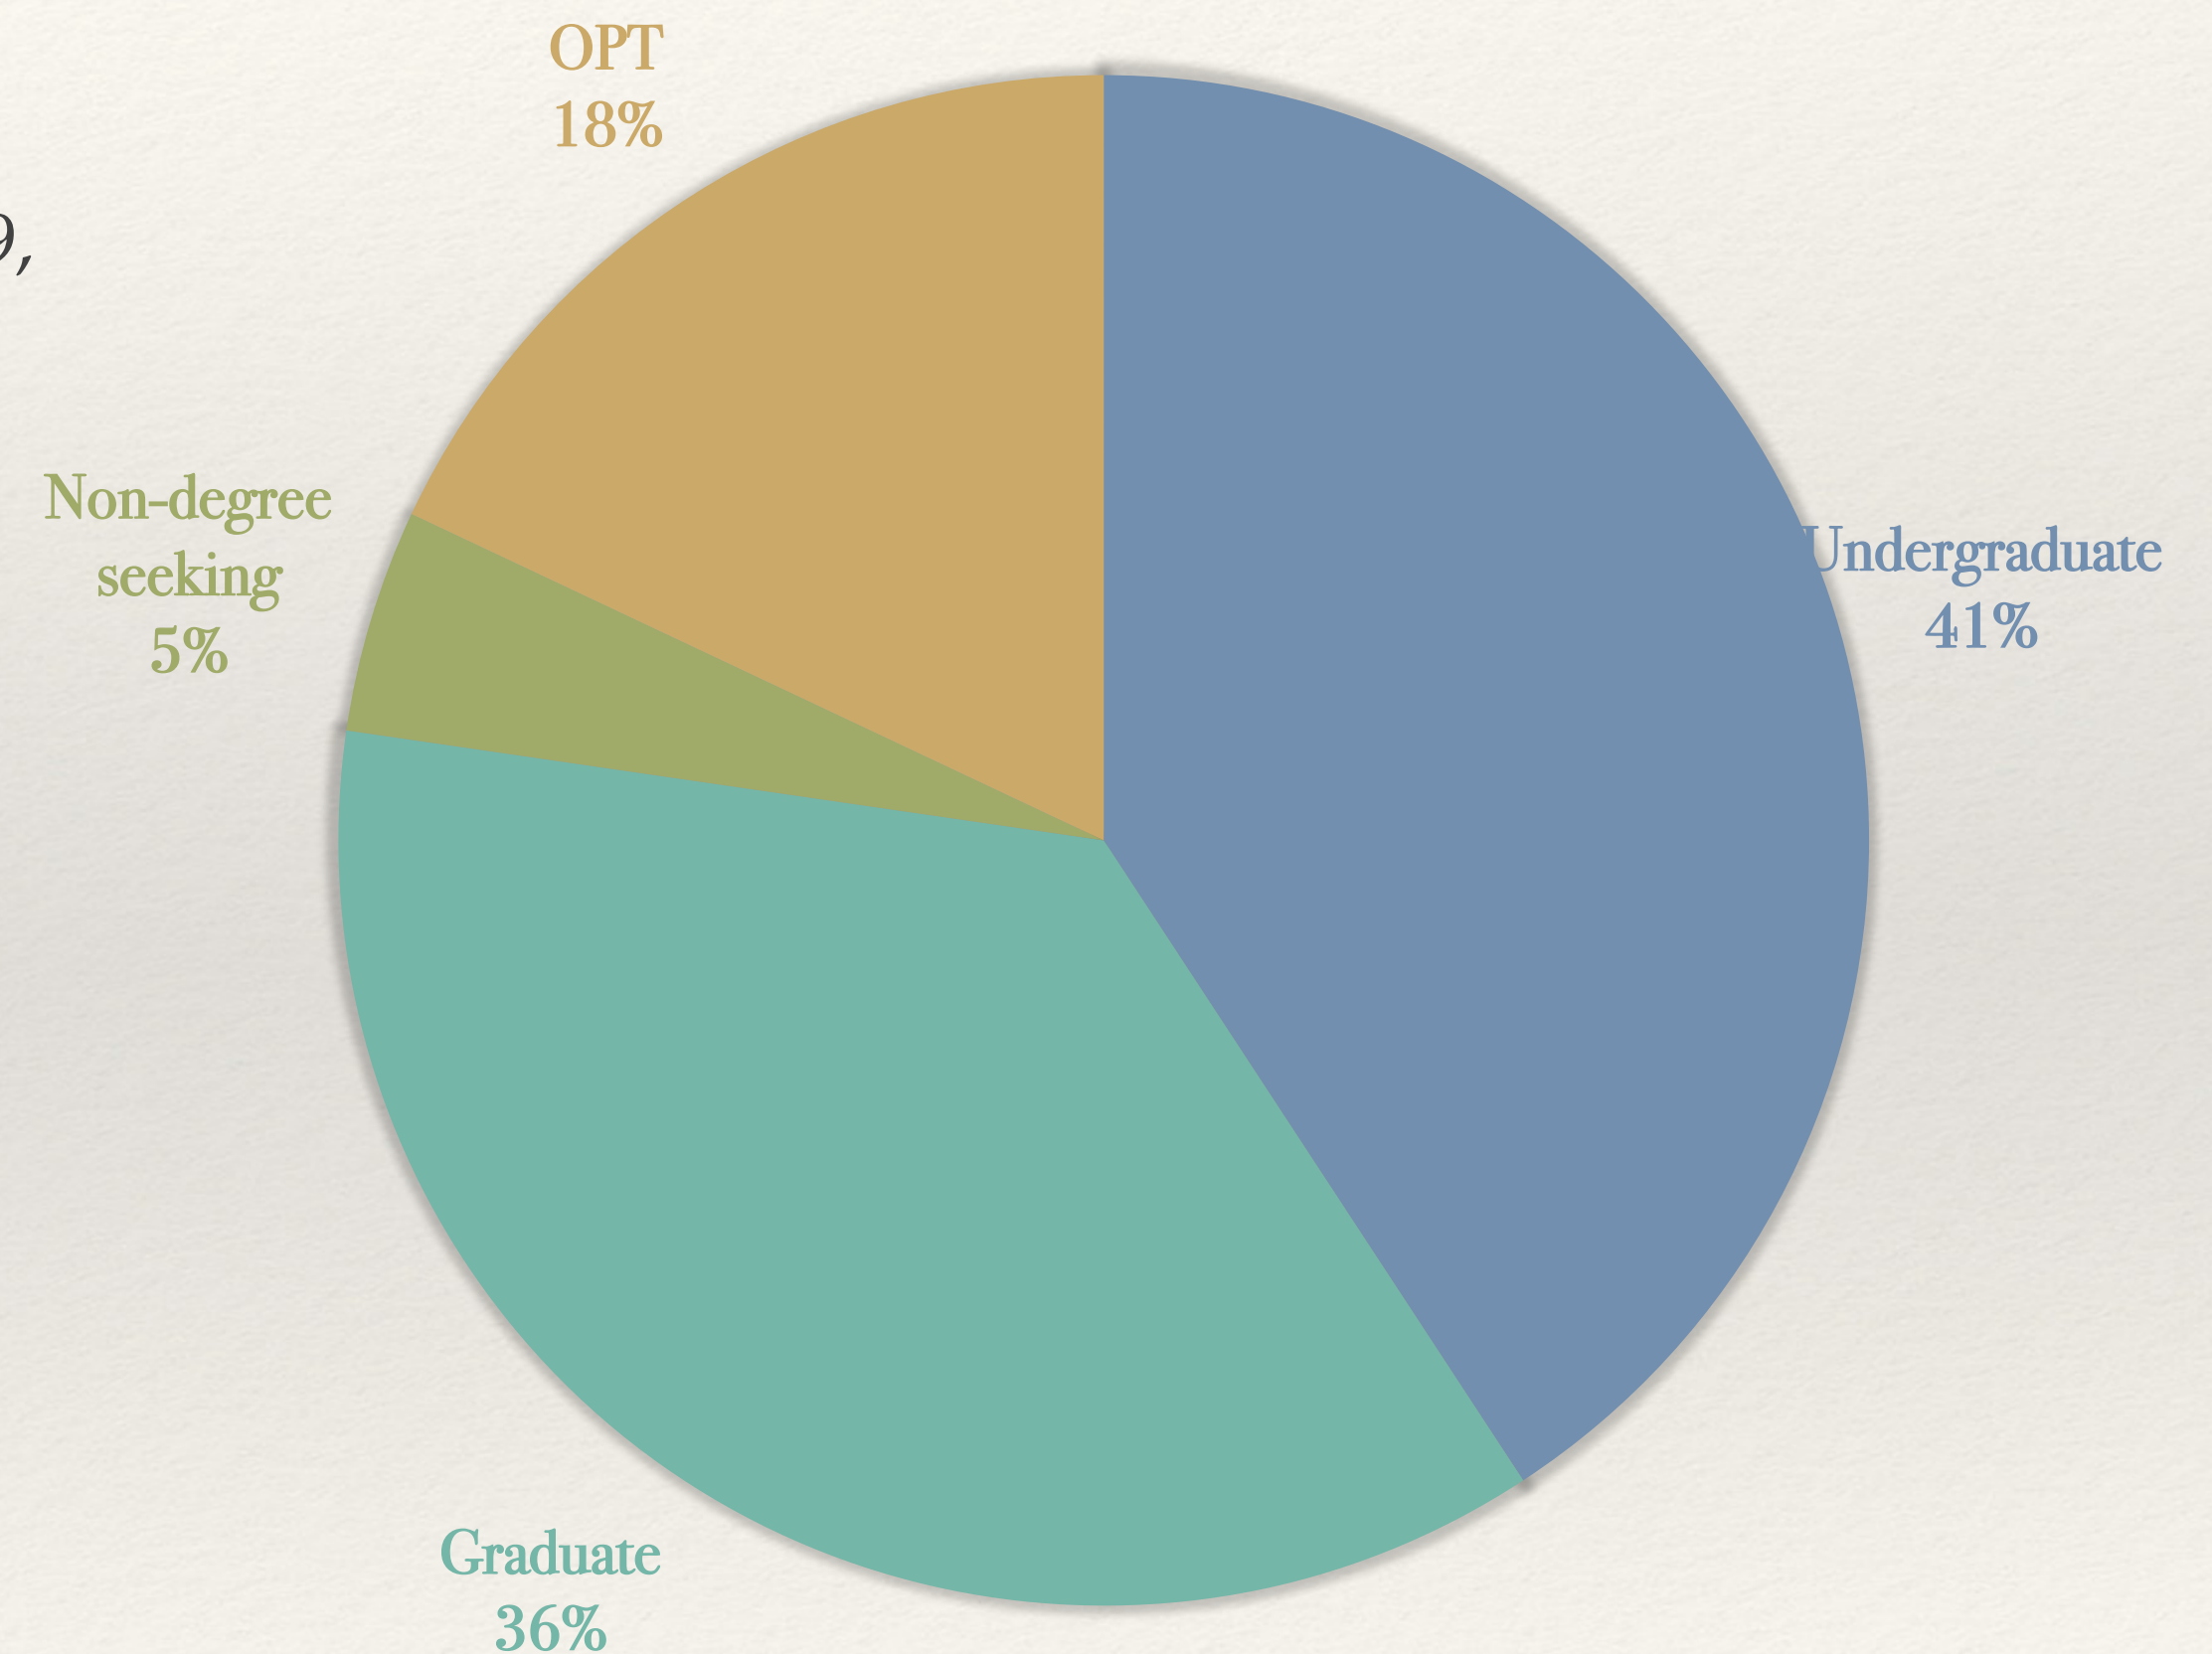

- Nearly 370,000 students from China were attending school in the US in 2019. In the most recent survey of institutional response to the COVID-19, 19 of the top 20 schools hosting international students from China shared information on how the crisis has impacted their campuses.
- Among institutions who have students from China enrolled who were impacted by travel restrictions, 100% had been in contact with their students
- Most students plan to return to China when possible
- 94% of institutions have brought in multiple stakeholders such as academic advisors, faculty, and other departments to develop an inclusive strategy
- 46% of institutions offered options for independent / remote study
- 41% of institutions offered a leave of absence or deferment option for the following semester
- 38% of institutions offered online or distance education classes
- 9% offered refunds
- 8% offered study elsewhere
- Institutions who had more than 10 students enrolled were more likely to offer options for their students
- Graduate students were offered flexible arrangements more frequently
- 40% of institutions indicated they were working with students who were finishing a degree to allow them to complete
- 76% of institutions indicated that outreach and recruitment for future Chinese students has been affected:
- 51% of institutions had cancelled recruitment events in China
- 43% of institutions indicated suspension of testing in China was delaying the receipt of student scores for TOEFL, IELTS, etc.
